Research Area

- I am a researcher in formal verification and falsification of cyber-physical systems, with expertise in developing algorithms for bounded model checking (BMC) and machine learning-based falsification. My doctoral research focused on advancing BMC and falsification frameworks for industrial CPS. Key contributions include:
- Developed a CEGAR-based BMC algorithm for affine hybrid systems, which integrates SAT-solving based path enumeration and path-wise reachability analysis, enabling efficient verification of safety properties.
 - Designed a bounded reachability algorithm for compositional affine hybrid systems, specifically tailored for compositional systems, thereby improving scalability in the analysis of large-scale CPS.
 - Designed machine learning-based falsification frameworks for industrial CPS, bridging data-driven techniques with robustness monitoring to address the limitations of traditional optimization-based falsification methods.

Education

- 2020 – present ■ **PhD in Computer Science from IACS Kolkata, India.**
Thesis title: *Generating Counterexamples to safety specifications in Hybrid Systems.*
Courses: Big Data Analytics and Advanced Machine Learning **CGPA: 8.50**
- 2016 – 2018 ■ **M.Sc. in Computer Science from Visva-Bharati, India.**
Courses: Advanced Data Structure, AI, DAA, etc **CGPA: 7.93**
- 2013 – 2016 ■ **B.Sc. in Computer Science from The University of Burdwan.**
Percentage: 66.12

Projects and Work Experiences

- 2017 - May 2018 ■ Relay TCP over wireless network with free-space optical and worldwide interoperability for microwave access.
under the supervision of Mr. Subhasis Banerjee, Visva-Bharati, India.
- May - Dec 2022 ■ Building neural network models of the standard Cyber-Physical Systems (CPS) benchmarks.
Under the supervision of Dr. Rajarshi Ray, IACS Kolkata, India.
Building Feed-forward Neural Networks (FNNs) for CPS benchmarks such as hybrid automata and Simulink models. We built FNN models for systems with both linear and non-linear dynamics, as well as time-varying input signals. These models are approximations of the original models and can be useful in developing applications for such systems.

Skills

- | | |
|-------------------|--|
| Languages | ■ Native language Bengali. Fluent in English and Hindi. |
| Coding | ■ Proficient in C, C++, Python, and SMT-LIB2. Familiar with MATLAB and LaTeX. |
| Technical Domains | ■ Formal Methods, Verification, Falsification, Reachability Analysis, SAT Solving, STL, Robustness Monitoring, and Machine Learning. |

Skills (continued)

DevOps	Experience in git and Docker.
Tools	FlexiFal, NNFal, XSpeed, SAT-Reach, SpaceEx, Flow*, dReach, and breach.
Soft Skill	Team Work, Time Management, Presentation Skills, and Leadership.
Misc.	Academic research, teaching, training, consultation, LaTeX typesetting, and publishing.

Teaching Experiences

Spring 2022	Teaching assistant on Artificial Intelligence (COM 4211) Responsibilities included setting and evaluating lab assignments. Supervising students throughout the course to succeed in the lab assignments.
Autumn 2023	Teaching assistance on Object-Oriented Programming with C++ Lab (COM 4111) My duties involved creating and assessing assignments and surprise tests. Additionally, I was responsible for overseeing students' progress during the course, ensuring their success in laboratory assignments.

Miscellaneous Experience

Selected Talks

2025	Research paper Data-driven Falsification of Cyber-physical Systems accepted at IEEE TCAD 2025 and presented at RHPL co-located with FSTTCS 2025, BITS Pilani, GOA.
2024	Research paper Data-driven Falsification of Cyber-physical Systems accepted at ISEC 2024 and presented the paper at IIIT Bangalore.
2023	A short presentation titled A Framework for Detecting Unsafe Behavior in Cyber-Physical Systems presented in Tech Symposium on Computing Trends 2023, organized by THALES associated with UNIVERSITY OF CALCUTTA.
2022	SAT-Reach: A Bounded Model Checker for Affine Hybrid Systems presented in the formal methods update meeting 2022 at IIT Delhi.

Certification

2023	Special recognition for completing a short thesis presentation in exactly 5 minutes. Awarded by THALES associated with UNIVERSITY OF CALCUTTA.
